4. Review of Chinese Communist Scientific and Technical Periodicals

FDD Summary - 376 February 1955
493 May 1955
610 August 1955
717 November 1955

5. Trend Reports (Prepared for Department of the Army, G-2, Chemical Corps, and CIA*)
(July 1954 - October 1955)

FDD 00-W- 30711 - Recent USSR Trends in Work on Synthetic Plant Growth Regulators.
30763 - USSR Trends in the Development of New Tools and Methods in the Field of Chemical Analysis.
*30781 - Soviet Magnetic Amplifier Research Published 1953-1954.
30827 - USSR Trends in Work on Protective Coatings with Unusual Chemical and Physical Properties.
30909 - Trends in USSR Work on Organosilicon Compounds.
30912 - USSR Trends in Ultrasonic Research Applied to Chemistry.
30940 - USSR Trends in Research on Proteins.
31002 - USSR Trends in Work on Organic Fluorine Compounds and Related Work in Some other Countries.
31140 - USSR Trends on Work on Hydrocarbons and Combustion of Hydrocarbons.
31207 - USSR Trends in Work on Organic Nitro-Compounds.
31226 - USSR Developments in the Field of Organo-phosphorus Compounds.
31358 - Developments in Work on Cholinesterol Inhibitors and Drugs.

- 31399 - New USSR Work on Nerve Impulse Mediators
Curariform Drugs and Spasmolytics in
Connection with the Therapy of Hypertension.
- 31428 - USSR Developments in the Field of Hydrocarbon
Oxidation, Chemical Synthesis Based on Partial
Oxidation of Hydrocarbons, and Kinetics of
Oxidation.
- 31434 - USSR Work on Problems of Industrial Sanitary
Chemistry.
- 31475 - Developments in USSR Work on Adsorption.

6. Abstracts (FDD Series 5 x 8 cards)
(June 1954 - November 1955)
Total produced - 2773
